Additional Information:

Rebuilt in 2008 and since then stored without working in production.
This machine arrived with the slide already well repaired, apparently at some point a corner was broken, and later they were working with it without any problem.
In 2008 the whole machine has been dismantled and checked all its components; everything was adjusted before and after assembly; check of lubrication, check of change of courses, check of clutch, check of electrovalves and pneumatic system, motor and electrical system, parallelism of table-carriage, etc. and new paint. Leaving the machine in perfect working order.

Security lock, pneumatic compensator, pneumatic clutch-brake, automatic lubrication pump.
