Workpiece Fixtures

Brand: MICRO CENTRIC
Model: 9-500-6-QC
YoM, approx.: 2009 used
Reconditioned:
Controls:

Additional Information:

Precision air chuck Ø240mm (Type 9-500-6QC)
Technology: APC
Repeatability approx. 0.0015
Jaw stroke 12mm
concentricity: approx. 0.005 mm

base jaw DRM 134-182mm

- as new unused air chuck

Equipment:

- Jaw Ø 174 - 182mm

Use of a high-precision pneumatic pull-down chuck with special jaws and workpiece stop. To ensure accuracy during jaw change and to realize the required set-up times, the chuck is equipped with the QC precision jaw change system. Replaceable module pins in the hardened special jaws take over the task of secure tooth flank contact.
