Tube Welding Line

Brand: DREISTERN
Model: RS65
YoM, approx.: 1979 used
Reconditioned:
Controls:

Product (profile, tube)

external diameter min.:	25 mm
external diameter max.:	76 mm
wall thickness min.:	0.7 mm
wall thickness max.:	3.25 mm

Line Characteristics

welding process:	HF inductive
sawing process:	travelling
speed max.:	100 m/min

Electrical specifications

mains power supply:	680 kVA
---------------------	---------

Additional Information:

For sale is a high-quality pipe welding line from the renowned manufacturer DREISTERN. The line comes from the facilities of Mubea (Switzerland) and is in very good condition. Technical Data & Highlights: Line length: approx. 130 m Staff required: 6 operators Welding process: High-frequency welding up to 400 kHz Induction welding power: up to 250 kW Advantages: Robust and reliable design – suitable for continuous industrial operation Precise weld quality through state-of-the-art high-frequency technology Ideal for the production of pipes in various dimensions Ready for immediate operation
