

Data Sheet

Reference No.: 57264

3-Rolls Plate Bending Machine

Brand: JELSINGRAD
Model: UBBD 6,3/2000
YoM, approx.: 1987 used
Reconditioned:
Controls: conventional

Working Range (bending)

plate thickness rolling (max.): 6.3 mm
length of straight piece
(prebending): 2000 mm

Electrical specifications

total power consumption: 9 kW

Dimensions / weights

space requirements -left/right-: 3800 mm
space requirements -front/back-: 850 mm
total height: 1750 mm
total weight approx.: 3700 kg

Additional Information:

Technology for the production of tanks, mixers, cylindrical vessels, welding technologies...

MACHINERY FOR TANK PRODUCTION

-Sheet metal rolling machine, length 2 meters, Jelšingrad 2000/6.3mm with the option of rolling pipes and profiles at the end of the rollers.

-Roller lines for assembly and welding of shells and dish ends with automatic movement, complete set of driven rollers

-Welding device for automatic longitudinal welding of shells VARSTROJ - Fronius, length 2 m with welding power source

-Machine for dish ends production - edge radius flanging, PRAKO machine with tools

-Machine for flanging shells - tanks at the end - edge for shell reinforcement - VEB Blech Bearbeitung with tools

-Hydraulic device for dish ends production on a lathe - metal spinning using tooling

-Belt grinding machine for sheet metal, width 200 mm
