specific extensions can be integrated upon request. •
The images shown depict a reference machine.
• The offer is based on the assumption that the
essential mechanical components can be
reconditioned and reused. In the event that new
parts must be manufactured, additional
costs will apply. A list of the components concerned
and their cost will be defined in
the service contract.

Any affected parts will be presented to the customer
for inspection and decision. We will be pleased to
provide further information or answer any questions
you may have.
